NJ DEP Lic# 90996A

Bed Bug Treatment Contract

Zap Pest Control, L.L.C. will apply E.P.A. approved materials according to Label Directions for the control of bed bugs. Currently there is no approved material that eliminates bed bug infestation with a single treatment. Zap Pest Control, L.L.C. will apply an approved residual pesticide in conjunction with the Insect Growth Regulator Gentrol. The Technician may decide to use an aerosol generator or apply Dust Formulations in addition to the liquid spray application. A 2nd treatment recommended in 2 weeks followed by 3rd treatment 30 days after 2nd treatment.

The Property Owner must inform all tenants of the time and date of treatment and the following preparations must be made before treatment can proceed.

- 1: Tenants must vacate the premises for at least 7 hours from the end of treatment. Children under the age of 12 must remain out of the premises for at least 24 hours from the end of treatment.**
- 2: All beds must be stripped and the mattresses and box springs must be stood on edge against the walls.**
- 3: All clothing must be removed from drawers and closets, washed in hot water and placed in plastic bags.**
- 4: All floor space must be cleared of movable items such as shoes, toys, or storage boxes.**
- 5: All pets must be removed from the premises and fish tanks must be covered with air filters and pumps turned off during treatment.**
- 6: All open foods must be enclosed in containers or removed.**
- 7: All switch plates and electric plug covers must be removed to facilitate application of dust formulation pesticides.**

After completion of treatment sanitation including the frequent changing of bedding and vacuuming will help control of bed bug populations. The purchase of mattress and box covers specifically designed to contain bed bugs is recommended.

Zap Pest Control, L.L.C. does not provide any guarantees or warranties or make claim that treatment will result in the complete elimination of bed bugs. Bed bug infestation may require multiple or continuing treatments.

Signature of this document indicates understanding of and agreement with all intent and results of treatment and reserves the right of Zap Pest Control, L.L.C. to refuse to make pesticide application if the property owner or tenants have not completed the above noted tasks. Photo or Video archive may be taken of the premises.

Zap Parásito Controla, L.L.C. aplicará E.P.A. materiales aprobados según Direcciones de Etiqueta para el control de chinches. Corrientemente no hay ningún material aprobado que elimina la infestación de chinche con un tratamiento solo. Liquide el Parásito Controla, L.L.C. aplicará un pesticida aprobado residual en la conjunción con el Regulador de Crecimiento de Insecto Gentrol. El Técnico puede decidir usar un generador de aerosol o aplicar Formulaciones de Polvo además de la.

El Terrateniente debe informar a todos los arrendatarios del tiempo y la fecha de tratamiento y los preparativos siguientes deben ser hechos antes de que el tratamiento puede continuar.

1. Los arrendatarios deben desocupar los locales durante al menos 7 horas a partir del final de tratamiento. Los niños menor de edad de 12 deben permanecer de los locales durante al menos 24 horas a partir del final de tratamiento.
2. Todas las camas deben ser quitadas(desnudadas) y los colchones y las primaveras de caja deben ser soportadas sobre el borde contra las paredes.
3. Toda la ropa debe ser quitada de cajones y armarios, lavada en el agua caliente y colocada en bolsas de plástico.
4. Todo el espacio debe ser limpiado de artículos móviles como zapatos, juguetes, o cajas de almacenaje.
5. Todos los animales domésticos deben ser quitados de los locales y los acuarios deben ser cubiertos de filtros de aire y bombas apagadas durante el tratamiento.
6. Todos los productos de alimentación abiertos deben ser incluidos en contenedores o quitados.
7. Todos los platos(las placas) de interruptor y cubiertas de enchufe eléctricas deben ser quitados para facilitar el uso de pesticidas de formulación de polvo.

Después de que la terminación de saneamiento de tratamiento incluyendo el cambio frecuente de lecho y vacuuming ayudará al control de poblaciones de chinche. Recomiendan a la compra de colchón y cubiertas de caja expresamente diseñadas contener chinches.

Zap Parásito Controla, L.L.C. no proporciona ninguna garantía o garantizados o hace la reclamación que el tratamiento causará la eliminación completa de chinches. La infestación de chinche puede requerir tratamientos múltiples o continuados.

La firma de este documento indica el entendimiento de y el acuerdo con toda la intención y los resultados de tratamiento y reserva el derecho de Zap Parásito Control, L.L.C. para rechazar hacer el uso de pesticida si el terrateniente o arrendatarios no han completado las susodichas tareas notables. La foto o el archivo De vídeo pueden ser tomados de los locales.
